

MASARYK
UNIVERSITY
FACULTY
OF MEDICINE
AKA MED MUNI

MED MUNI, with a history since 1919, is the leading educational institution in the field of medicine in the Czech Republic. Our research achievements and innovative approach to education place us in the top rank of educational institutions in Central Europe. Our students are trained in the largest simulation centre in the world prior to the actual practice called SIMU. The modern MED MUNI campus in Brno offers state-of-the-art facilities, cutting-edge technology and modern educational facilities. Students visit clinics and hospital sites as part of their internships, and the campus provides a unique opportunity to engage in advanced research and teaching, preparing them for careers as scientists and top physicians.

You want to find out more? Do you have questions about The Junior Academy programme at MED MUNI?

Check out The Junior Academy MED MUNI website or email us at akademie@med.muni.cz

DOC. MUDR. MAREK JOUKAL, PH.D.

Head of the department of Anatomy, professional garant of the LF MU Junior Academy programme

"As the professional garant of The Junior Academy of the Faculty of Medicine, the head of the Anatomical Institute and above all a doctor, I would like to invite everyone who is interested in science and medicine to our programme. Whatever field you choose in your future specialization, our SPA theses can prepare you for the academic environment and thanks to them, you will also be able to enter the university field with a great advantage and non-transferable experience."

MED MUNI AND SHAPE
YOUR MEDICAL JOURNEY!

 @Juniorskaakademie
 juniorskaakademie_lfmu

The Junior Academy MED MUNI is an inspiring programme for high school students. Choose a scientific career and try out writing a SPA thesis under the guidance of renowned academics or our online university lectures. Gain an edge over others and study at a prestigious university.

DOCTOR OR SCIENTIST?

The MED MUNI Junior Academy is a prestigious and inspiring programme for talented high school students with a passion for medicine and science, focused on those who are already finding their way. In besides the online courses we prepare with our experts and scientists, we also offer you a unique opportunity to experience studying at university while you are still in high school. For motivated students, we offer 2 variants of SPA theses.

ONLINE OPTION WITHOUT EXPERIMENT

Every year our academics announce several research topics that are waiting for their researchers. Be one of them! Under the guidance of renowned scientists, you will work on your research thesis, which you will present online to a professional scientific jury after its completion. With successful accomplishment, you will receive 20 points for the admission procedure which will make your application to MED MUNI much easier.

ONLINE VERSION WITH IN-PERSON FACULTY EXPERIMENT

As with the previous option, this one also runs online during the time of study and information extraction. The most important part, of course, will take place in our state-of-the-art labs, right on-site at the faculty! For one week, you will become a university student experimenting with scientists in the labs and you'll be including your research findings in your professional thesis. On the last day, you will present and debate your work in front of a scientific committee. With a successful defence, you will be automatically accepted to study without an admission procedure.

KAROLINA, 19 YEARS OLD

"Thanks to my SPA thesis, I had the opportunity to research Alzheimer's disease and its effect on the human brain. I successfully got into MED MUNI without an admission procedure and experienced a prestigious internship at the OIST Institute in Japan. Don't be afraid to give it a try!"

WHY TO STUDY IN BRNO, CZECH REPUBLIC?

Brno, the second largest city in the Czech Republic, is known for its rich history, lively culture and friendly atmosphere. Its cosmopolitan environment and innovative spirit create an ideal environment for study. The Czech Republic is ranked as the 10th safest country in the world in 2022, which increases its attractiveness for international students.
